BALEARES INTERNATIONAL COLLEGE

End of Course. Solidarity Challenge Against Coronavirus

You can also help the most vulnerable people ... **From home!**

Baleares International College joins **Action Against Hunger**, as other schools around the world are doing, in this activity which allows to the entire educational community of the center: teachers, students, parents and mothers, to collaborate helping the most vulnerable people.

In **Action Against Hunger**, we continue our mobilization in Spain and in the countries in which we work, that have been affected by the health emergency of COVID-19. Since the beginning of the crisis, **we have been acting in Spain** to protect people at risk of exclusion:

We provide financial support through our Solidarity Aid Cards, which allow the most vulnerable families to purchase food and hygiene products in order to succeed.

We provide prepaid cards with data. So families without internet connectivity may adapt to confinement and avoid its isolation.

We offer telephone psychosocial support to the most affected people by the pandemic.

We encourage job placement by training unemployed people and advising entrepreneurs to cope with the situation of the pandemic.
